If you have questions, contact me to set up a time to meet.

Class

We meet Tue and Thu 1:00 – 2:15pm in Room 406 IS.

Text:

Probability and Measure (third edition) by Patrick Billingsley.

Prerequisites:

Students should have learned basic probability, linear algebra, and have had a course in advanced calculus. Some work will require a computer, so experience with a mathematical (Matlab, Maple, Mathematica) or statistical package (Minitab, R, SAS) will be useful.

Requirements: Weekly homework (10%), one midterm exam (40%), and final exam (50%).
